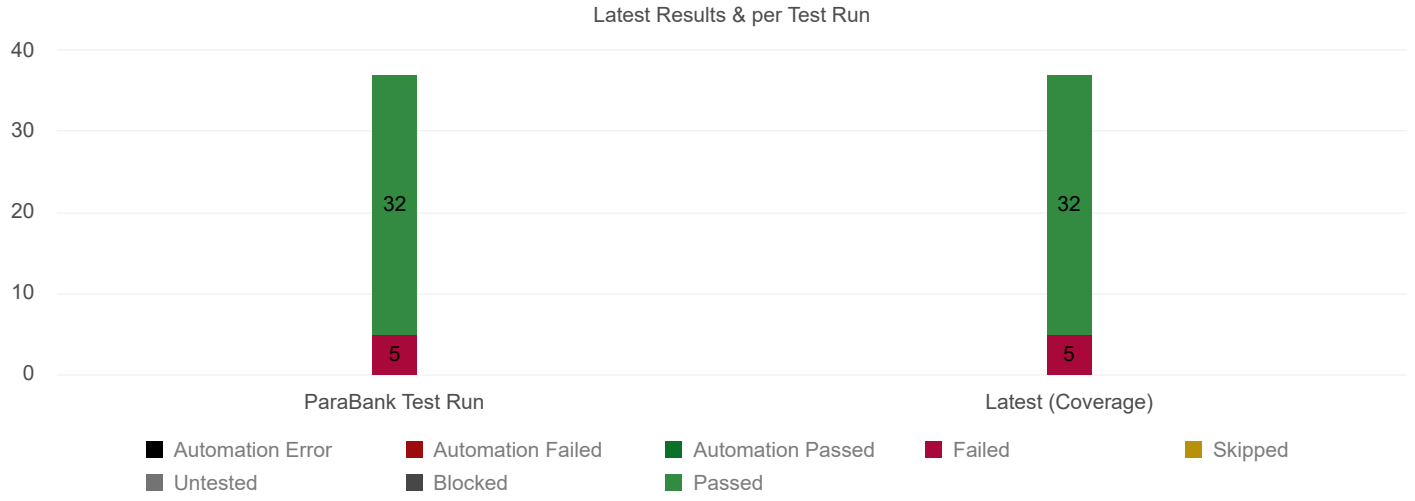
Comparison for Cases (Results) 3/2/2026

Project: Parabank Testing
By Sujith Prakash, 3/2/2026 8:25 AM



Test Runs

The statistics and percent numbers of this report only include the test cases that match the selected filters, if any.

Thursday, February 05, 2026

ParaBank Test Run 86%

	ParaBank Test Run	Latest (Coverage)
Tests	37	37
Passed	32 (86%)	32 (86%)
Blocked	0 (0%)	0 (0%)
Untested	0 (0%)	0 (0%)
Skipped	0 (0%)	0 (0%)
Failed	5 (14%)	5 (14%)
Automation Passed	0 (0%)	0 (0%)
Automation Failed	0 (0%)	0 (0%)
Automation Error	0 (0%)	0 (0%)

Comparison & Coverage

1. User Login (4)

This section covers test cases to verify the **login functionality** of the ParaBank application. It ensures that users can log in successfully with valid credentials and that appropriate validation messages are displayed for invalid or missing inputs.

ID	Title	ParaBank Test Run	Latest (Coverage)
C38	User registration with vaild details	Passed	Passed
C39	User can login with valid username and password	Passed	Passed
C40	User cannot login with invalid username and password	Passed	Passed
C41	Login attempt with empty username and password	Passed	Passed

2. Account Overview (4)

This section contains test cases related to displaying user accounts, account balances, and navigation to detailed account information. It ensures correct data presentation and consistent behavior during user interactions.

ID	Title	ParaBank Test Run	Latest (Coverage)
C42	Account overview page loads successfully after login	Passed	Passed
C43	Account balance is displayed correctly	Passed	Passed
C44	User can view account details by selecting an account	Passed	Passed
C45	Transaction list loads correctly for selected account	Passed	Passed

3. Transfer Funds (7)

This section contains test cases related to transferring money between user accounts, including amount entry, account selection, and transaction completion. It ensures accurate balance updates and reliable transfer behavior during user actions.

ID	Title	ParaBank Test Run	Latest (Coverage)
C46	User can transfer funds with valid details	Passed	Passed
C47	Transfer fails when amount field is empty	Passed	Passed
C48	Transfer fails when source and destination accounts are the same	Failed	Failed
C49	Transfer blocked when amount exceeds available balance	Failed	Failed
C50	Transfer attempt with zero amount	Passed	Passed
C51	Transfer attempt with negative amount	Failed	Failed
C52	Multiple rapid clicks on submit button during transfer	Passed	Passed

4. Bill Payment (6)

This section includes test cases to verify the bill payment functionality, ensuring users can successfully send payments to payees using valid details and that appropriate validations are shown for missing or incorrect information.

ID	Title	ParaBank Test Run	Latest (Coverage)
C53	Bill payment completes successfully with valid payee and amount	Passed	Passed
C54	Bill payment blocked when mandatory fields are left empty	Passed	Passed
C55	Bill payment fails when amount exceeds available balance	Failed	Failed
C56	Bill payment details appear in account transaction history	Passed	Passed

C57	Account balance updates correctly after bill payment	Passed	Passed
C58	Amount field accepts only numeric input in Bill Pay	Passed	Passed

5. Transaction History (4)

This section covers test cases to verify that transaction history is displayed accurately, showing correct transaction details and ensuring users can view and navigate past transactions for their accounts.

ID	Title	ParaBank Test Run	Latest (Coverage)
C59	Transaction history displays list of completed transactions	Passed	Passed
C60	Transaction entry shows correct amount and transaction type	Passed	Passed
C61	Transaction history updates after fund transfer	Passed	Passed
C62	Transaction history behavior when no transactions exist	Passed	Passed

6. Update Contact Info (4)

ID	Title	ParaBank Test Run	Latest (Coverage)
C63	Update Contact info page loads with existing user details	Passed	Passed
C64	Profile information updates successfully with valid data	Passed	Passed
C65	Updated profile information persists after logout and login	Passed	Passed
C66	Profile update behavior with invalid data formats	Failed	Failed

7. Logout & Session Management (3)

This section covers test cases to verify that users can log out securely and that user sessions are handled correctly

ID	Title	ParaBank Test Run	Latest (Coverage)
C67	User logs out successfully from application	Passed	Passed
C68	Browser back button does not restore session after logout	Passed	Passed
C69	Session ends across all tabs after logout	Passed	Passed

8. AI-Augmented Testing (5)

This section includes test cases generated with AI assistance to identify advanced edge cases, risk scenarios, and failure conditions across core banking workflows. All AI-suggested test cases were reviewed, refined, and executed manually to ensure accuracy, relevance, and alignment with real-world application behavior.

ID	Title	ParaBank Test Run	Latest (Coverage)
C70	Fund transfer submission during network interruption	Passed	Passed
C71	Duplicate bill payment prevention on browser refresh after submission	Passed	Passed
C72	Large numeric value handling in transfer amount field	Passed	Passed
C73	Concurrent transfers from two tabs using the same source account	Passed	Passed
C74	Unauthorized page access after manual session cookie deletion	Passed	Passed
